Way to Test n Tag and now
featuring **20 Amp** operation!

If you need to Test n Tag, there is no other unit
that comes close in price or quality as well
as exceeding with all the specifications
outlined by the AS/NZS 3760 standard.

TnT-elx: Test n Tag Portable Appliance Tester at up to 20 Amp Operation

The **TnT-elx** is a high-powered, Australian made, advanced safety tester that is ideal for general testing requirements at up to **20 Amp** load operation. This unit tests sensitive electronic equipment that cannot be tested using a standard insulation tester. The **TnT-elx** is simple to use with one button testing that has a **PASS** or **FAIL** indicator, and it displays the actual test readings.
